

REMARKS/ARGUMENTS

In response to the Examiner's final Office Action of January 15, 2008 issued with respect to the present RCE application, the Applicant respectfully submits the accompanying Amendment of the claims and the below Remarks.

Regarding Amendment

In the Amendment:

independent claim 1 is amended to clarify that the claimed device comprises a flat panel display unit and that the printer is contained in the flat panel display unit and to incorporate the stand of the flat panel display unit recited in dependent claim 27. Support for this amendment can be found at paragraphs [0187]-[0188] of the present specification; dependent claims 27 is cancelled; and dependent claims 2-26 and 28-31 are unchanged.

It is respectfully submitted that the Amendment does not add any new matter to the present application, nor any new issues to the prosecution of the present application.

Regarding 35 USC 103(a) Rejections

It is respectfully submitted that the subject matter of amended independent claim 1, and claims 2-26 and 28-31 dependent therefrom, is not taught or suggested by any one or more of Kashiwa, Morgavi, Vaghi, Minemoto, Steinfeld and Rylander, because one of ordinary skill in the art understands that the laptop computer disclosed by Kashiwa does not constitute a flat panel display unit and Vaghi merely discloses an embodiment in which it is possible to position a printer in a flat-panel display, not to further incorporate a receptacle for receiving an ink cartridge of the printer in a stand of the flat-panel display unit, as is required by the claimed invention.

It is respectfully submitted that all of the Examiner's rejections have been traversed. Accordingly, it is submitted that the present application is in condition for allowance and reconsideration of the present application is respectfully requested.

Very respectfully,

Applicant/s:
